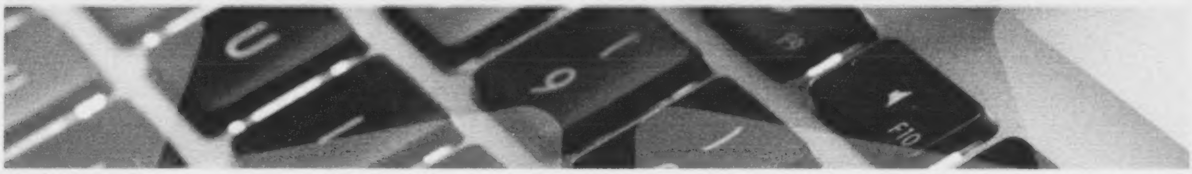
Trade-marks Journal

2018-02-28 — Vol. 65 No. 3305



Canadä

Trade-marks Journal

Vol. 65 No. 3305

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 09

Apparatus for recording, transmission and reproduction of sound and images, namely, cassette players, audio receivers, video receivers, microphones, speakers, namely loudspeakers, stereo speakers, audio speakers for home, speakers for computers; digital cameras, video disc players; pre-recorded compact discs featuring computer game software; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, namely, calculators, data processing equipment, namely, computers used for mathematical calculations, used in the manipulation, management and storage of data information; apparatus, instruments and materials in the nature of semiconductors, for transmitting and receiving and recording sound and images; downloadable audio and video recordings featuring musical sound recordings, entertainment-related audio and video broadcasting content enabling transmission, storage, sharing, collection, editing, organising and modifying audio and video messages and images for use in social networking online chats and social networking databases; computers, tablet computers, computer peripheral devices, namely, printers, scanners, computer mouse, keyboards, expansion cards, graphics cards, tape drives, microphones, loudspeakers, webcams and digital cameras; computer networks consisting of a group of computers and hardware that are electronically connected allowing the sharing of resources and information; pre-recorded data storage carriers, namely allowing for various fonts, typefaces, type designs and symbols to be used in electronic communications; electronic communication equipment and instruments, namely mobile phones, computers, cables, radio, communications satellite; telecommunications apparatus and instruments, namely, mobile phones, computers, cables, radio, communications satellite; computer and electronic games; computer software for use in creating, editing and delivering textual and graphic information via computer communication networks, wireless communication networks, telephone communication, Internet Protocol (IP) telephones; computer hardware for communications that includes a sound card and a graphics card; computer gaming machines; user manuals in electronically readable, machine readable and computer readable form for use with, and sold as a unit with, all the aforementioned goods; audio tapes for sale with booklets; pre-recorded computer software featuring games, video films, movies, animation and pictures; digital audio and video players with multimedia and interactive functions; computer software for use in the field of telecommunications, namely, providing transmission and exchange by public switched telephone network (PSTN) and Internet of voice, data, namely, audio, video, text, pictures and printed documents, images and graphics via cellular and satellite networks; software for creating and delivering electronic greeting cards, messages and electronic mail; radios; audio, video, and digital mixers; navigation apparatus for vehicles, namely on board computers that work via GPS and satellite navigation; cameras; video cameras; telephones; mobile telephones; portable digital electronic devices for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and transmission of software related thereto, namely, phones, mobile phones, computers, tablet computers, portable computers; handheld digital electronic devices for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and software related thereto, namely phones, mobile phones, computers, tablet computers, portable computers; digital format audio players, namely, MP3, FLAC(Free Lossless Audio Codec), AAC (Advanced Audio Coding), Ogg (open container file for audio, video, text, still image content), Vorbis (audio compression), WAV(file convertor); electronic tone generators, namely used to amplify music waves; computer software for use in optimising desktop utility; screen saver software; software for detecting, eradicating and preventing computer viruses; computer software used in the field of data encryption, namely, message integrity for use in data authentication; computer software used in the field of database management, namely, software used to analyse, recover, process, store information; computer software used for computer system backup, file management and database management; hand held computers, personal digital assistants, electronic organizers, electronic notepads; mobile digital electronic devices, namely, smart phones, digital diaries, personal organisers, used for data processing, information processing, storing and displaying data, transmitting and receiving data and for the transmission of data between computer hardware devices; global positioning system (GPS) devices, namely comprised of computers, transmitters, network interface devices, receivers, antennas; handheld and mobile digital electronic devices for the use of sending and receiving telephone calls, faxes, electronic mail, audio, video, image and other digital media, namely, telephones, smart phones, portable computers, handheld computers, computers, Internet protocol (IP) telephones; pre-recorded computer programs for personal information management, database management software, character recognition software, telephone management software, electronic mail and messaging software, paging software, mobile telephone management software; computer software used in the field of database synchronization; computer programs for accessing, browsing and searching online databases; computer software for use in connection with online music subscription service; computer software that enables users to play and program music, play video games and allows users to text messages; computer software and firmware for operating system programs, databases and application development programs used with personal and handheld computers; computer software that allows users to access communications networks hosted on the Internet or other global computer networks; computer software for use in authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, displaying, storing and organizing textual information, graphical information and images and electronic publications; downloadable electronic publications in the nature of books, plays, pamphlets, brochures, newsletters, journals, magazines, and periodicals; computer hardware and software for providing integrated telephone communication with computerised global information networks; electronic handheld devices for the wireless receipt, storage and transmission of data and messages, and electronic devices that enable the user to keep track of and manage personal information, namely personal organisers; computer software used for the redirection of data, namely, messages, Internet e-mail, text and graphic information to one or more handheld devices on a personal computer or on a computer server; computer software application used to enable the synchronization of text data information and sound effect apparatus and instruments, namely, computer software for the purposes of manipulating and enhancing sound recordings via the internet; computer software for use in optimising desktop utility; screen saver software; software for detecting, eradicating and preventing computer viruses; computer software used for computer system backup, file management and database management; software for web design, creation, publishing and hosting.

SERVICES

Class 38

Telecommunications services, namely the electronic transmission of data text, images, graphics and voice via satellite and telecommunications networks; telecommunication services, namely, the transmission of voice, data text, facsimile by means of cellular telephone, telephone, mobile computers, voice mail, teleconferencing, satellite transmission, paging services via satellite and telecommunications networks; electronic transmission of computer software via the Internet and other computer and electronic communication networks; transmission and distribution of data text and audio-visual images via a global computer network of the Internet; provision of connectivity services and access to electronic communications networks for transmission and reception of computer software; leasing time to a computer database in the field of financial planning and telecommunications, namely through means of electronic mail messaging, computer software, on-line computer games, computer games, video games, computer hardware and social networking; transmission of on-line communications services namely, computer aided transmission of messages and images, namely, recording, storage and subsequent transmission of voice messages, text messages, photographs, pictures and animated cartoons by a global computer network and the internet; Providing internet chatrooms, namely, on-line forums and on-line chatrooms established via text messaging; communications via a global computer network and the Internet, namely transmission of messages, data text, comments, information by means of electronic mail, instant messaging, text messaging; transmission and delivery of digital music used for accessing by means of a global computer network; providing access to digital music websites on the Internet; electronic mail, message sending and receiving services; broadcasting services via a global computer network and other computer and communications networks, namely, uploading, downloading, posting, showing, displaying, tagging, sharing and electronically transmitting messages, comments, news, television shows, videos, movies, films, photos, posters, music, animation, pictures, images, text, information, and other user-generated content; provision of access to web pages; providing access to MP3 and other digital formats, namely audio music storage websites via the Internet; text, image, audio and graphic message sending; communications by telephone, cellular telephone, electronic mail; computer aided transmission of messages and images by email, MMS (multimedia messaging service) and SMS (short message service text messaging), transmission of messages and images by facsimile transmission, transmission of messages and images by satellite transmission, paging services; Transmission of electronic digital media and information over the internet or other electronic communications network namely voice and video picture streaming via the internet featuring music, movies, news and sports; providing access to websites on the Internet via computers, mobile phones and other electronic devices; multimedia telecommunication services, namely, transmission of sound and video via interactive multi-media networks; providing telecommunication connections and access to the Internet (service providers)to provide global computer leasing and rental of communication and telecommunication and apparatus and instruments, namely, telephones, mobile telephones, Internet protocol (IP) telephones, cellular phones, computers, cables, radio, communication satellite; electronic transmission of streamed and downloadable audio and video files via computer and other communications networks; web casting services, namely, providing webcasting of television programs, radio programs and music; delivery of text, video and audio messages by electronic transmission via satellite and communication links; providing on-line forms, on-line chat rooms, namely allowing for transmission of electronic messages relating to consultancy and advisory services among users in the field of business management, business strategy and business organization.

materials testing and evaluation; planning of buildings and infrastructure systems for buildings; providing quality assurance services in the field of wastewater treatment; providing reagent sample testing for others ; providing business risk assessment services, risk management services for others; sewer overflow monitoring services; sewer system monitoring services; technical consultancy in the field of environmental protection; technology consultation and research in the field of water resources, namely, water and sewer management;; technology supervision and inspection in the field of water resources, namely, water and sewer management; testing of raw materials; underwater structural inspection services; urban planning; water quality control services; application service provider featuring software for use in quality control, security, environmental management and product supply chain management in the nature of accounting, financial management, personnel management, property management, inventory control management, urban planning and schedule management; application service provider featuring software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports, all in the field of building construction; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases, namely, design, creation, hosting, maintenance of websites and computer databases for others in the fields of database management in the nature of management of personnel productivity, wireless communication, mobile information access, and remote data management for wireless delivery of data to handheld computers, laptops and mobile electronic devices, namely, mobile phones, smart phones, tablet computers, mp3 players; application service provider, namely, providing, hosting, managing, developing, researching, analyzing, reporting, and maintaining applications, software, web sites, and databases, namely, design, creation, hosting, maintenance of websites and computer databases of others in the fields of personnel management, risk management; computer service, acting as an application service provider in the field of knowledge management to host computer application software for creating searchable databases of information and data, namely, computer database management services to allow users to perform, on-line, the collecting and analyzing of different types of opinion surveys; computer service, namely, computer database management services in the field of knowledge management to host computer application software for creating searchable databases of information and data; computer service, namely, computer database management services in the field of knowledge management to host computer application software for searching and retrieving information from databases and computer networks; computer services, namely, computer database management services, in the nature of providing a web-based system and online portal for customers to remotely manage, administer, modify and control their end user computer devices, data and software applications; computer systems integration services; database development services; integration of computer systems and networks; computer systems integration services; providing a secured-access website that gives registered Internet networked institutions the ability to upload, view, copy, print, download and share documents and images for the purposes of conducting consumer-driven transactions, namely, hosting websites on the internet; software as a service services featuring database management; software as a service services, namely, computer database management for others for use in accounting and financial management, and personnel management, inventory control management, and schedule management; landscape architectural design; environmental services, namely, technical consultation in the field of environmental science, namely, environmental protection and designing and testing of energy products for others; environmental services, namely, technical consultation in the field of environmental science, namely, environmental protection, hydraulic design, namely, hydraulic modeling and design of storm drainage infrastructure; hydrologic modeling and design of measures to protect areas likely to be inundated by storm-water and flood-waters; quality control for others in the field of water and waste water treatment and irrigation systems; technical support, namely, monitoring of network systems hydro-electric factory facilities; technical support services, namely, troubleshooting of computer hardware and software problems in the field of hydro-electric engineering; hosting software for use by others for use during planning, design and operations for estimating, measuring and verifying the environmental, social and economic impact of business practices in the fields of energy, construction, manufacturing, transportation, in relation to building planning, design, construction and operation, water and wastewater treatment facility design and operation, oil and gas pipeline and pump station facility design, construction and operation, oil and gas transportation and oil and gas delivery systems, utility and governmental infrastructure planning, waste treatment plant design and operation, recycling, carbon dioxide emissions, greenhouse gas emissions, and employee travel and job-related transportation; hosting software for use by others for use during planning, design, and operations for businesses, utilities and governments for estimating, measuring and verifying the environmental, social and economic impact of alternatives in building and structures design, construction and operation; consulting services in building construction supervision in the field of environmental assessment and planning, consulting services for others in the field of design of production buildings, consulting services for others in the field of architectural design, consulting services for others in the field of engineering services for building and property condition assessment, building construction management, repair and restoration, and environmental consulting in the field of environmental protection, and technical analysis of a product or process to determine how to make it more environmentally sound; architectural design services in the fields of traffic and transportation; professional consulting services in the fields of urban planning, land surveying, landscape architecture, and environmental sciences, namely, environmental protection; designing plant components and equipment for nuclear power plants; architectural consultation; industrial design; land surveying / land surveys; research in the field of environmental protection; provision of scientific information, advice and consultancy in relation to carbon offsetting; water quality analysis; design and development of computer hardware and software; hosting of websites; installation, maintenance, hosting and updating of computer software; computer software consultancy.

(2) Engineering services in the fields of environmental remediation, transportation, water control and delivery, waste water purification and disposal, food handling, industrial design and building infrastructure planning; engineering and engineering consulting services in the fields of industrial design, pharmaceutical manufacturing, chemical manufacturing, petroleum extraction, petroleum refining, aerospace manufacturing, automotive manufacturing, building material manufacturing, food and beverage manufacturing, metals manufacturing; consultation in the fields of civil engineering, environmental engineering, namely, environmental protection, mechanical engineering, manufacturing engineering, design engineering, process engineering, pollution abatement and urban planning; plan, design, build, and renovate buildings; architectural services and architectural consultancy services; architectural and design engineering consulting services; architecture and urban design planning services; land development services; hydrological services, namely, inspection and maintenance of hydrological structures, namely, dams, radial gates and pipeline; environmental engineering services and technical consulting services in the field of environmental engineering; management of construction projects, namely, business project management services for construction projects; mechanical, electrical and energy engineering services; providing planning and design of highways, bridges, tunnels, airports, rapid transit systems, ports, terminals, water resources programs, and waste disposal systems-namely, determining the financial, engineering and economic feasibility of proposed projects, and preparing preliminary designs, final designs and specifications; providing online non-downloadable software, namely, computer database management designed to facilitate the capture, storage and management of project data, namely, cloud computing providing software for database management; civil engineering; civil engineering for the design of airports, highways and bridges; computer aided design, namely, graphic design and mechanical design for others; conducting chemical surveys, namely, strength and chemical testing of cementitious materials, asphalt and aggregates; conducting engineering surveys, namely, farm surveying, geological surveying, land and road surveying, marine surveying, aerial surveying, technical surveying; conducting of

feasibility studies; construction drafting; consulting in the field of structural engineering; consulting in the fields of civil engineering and architecture; consulting services in the field of architectural design; consulting services in the field of sustainable building design; decommission, decontamination, and demolishing of facilities, namely demolition services; drafting of construction plans for recreation premises; engineering services for building and property condition assessment, building management, repair and restoration and environmental consulting in the field of environmental protection; engineering services for the construction of water treatment and purification plants, solid waste treatment plants; engineering services, namely, engineering for the construction of airports, highways and bridges; engineering services in the fields of physical and cyber security, namely, computer network security services; graphic illustration and drawing services, namely, providing graphic illustrations and drawings of commercial and industrial building designs, and converting building designs or markups to electronic cad drawings; inspections of airports, highways and bridges; land surveying; land use, namely, urban and rural planning services; landscape architectural design; marine, aerial and land surveying; material testing; materials testing and analyzing; materials testing and evaluation; mechanical engineering; monitoring of commercial and industrial sites for detection of volatile and non-volatile organic compounds; monitoring of commercial and industrial sites for erosion and sedimentation; pipeline inspection services; planning and layout design for the interior space of retail business establishments; planning and layout design services for cleanroom environments; planning of buildings and infrastructure systems for buildings; product development services for others; quality control for others, namely, providing quality assurance in the construction industry, providing quality assurance in the field of computer software; research and development and consultation related thereto in the field of civil engineering; research on building construction or city planning; research in the field of mechanical engineering; research, development, engineering and testing services in the fields of welding and material joining; structural engineering design services; survey design, research and surveying, namely, farm surveying, geological surveying, land and road surveying, marine surveying, aerial surveying; technical consultancy regarding the field of road cutting technology; technical surveying; testing, analysis and evaluation of the goods and services of others for the purpose of certification, namely, providing certification of quality assurance in the construction industry; testing, analyzing and evaluating the structural properties of masonry and concrete structures; urban planning; analysis of stream water quality; bacteriological consultation and research; bacteriological research; calculating and simulating flood flows, modeling of areas likely to be inundated, and preparing related reports and technical documentation; chemical analysis; chemical research; chemical, biochemical, biological and bacteriological research and analysis; civil engineering for the design of wastewater treatment facilities; consultation services in the field of hydrological research; consulting services in building construction supervision in the field of environmental assessment, compliance and planning; engineering and hydrological design of restoration of stream channels, marshes, estuaries, and wetlands; engineering services for building and property condition assessment, building management, repair and restoration; engineering services for the construction of water treatment and purification plants, solid waste treatment plants; engineering services, namely, engineering for the water distribution systems and wastewater systems; environmental services, namely, detection of contaminants in water; environmental services, namely, technical consultation in the field of environmental science, namely, environmental protection design for others in the field of energy engineering, designing and testing of energy products for others; engineering services, namely, design for others in the field of environmental engineering, designing and testing of new environmentally friendly products for others; hydraulic engineering and design, namely, hydrologic and engineering modeling and design of measures to protect areas likely to be inundated by storm-water and flood-waters; hydrologic and hydraulic modeling and design of storm drainage infrastructure; hydrologic study of surface and ground water; hydrological calculations and simulations of flood flows in streams, marshes, and wetlands; hydrological research; inspections of water treatment facilities; land surveying; landscape architectural design; mapping services; marine, aerial and land surveying; material testing; materials testing and analyzing; materials testing and evaluation; planning of buildings and infrastructure systems for buildings; providing quality assurance services in the field of wastewater treatment; research in the field of hydrogeology; research on building construction or city planning; sewer overflow monitoring services; sewer system monitoring services; structural engineering design services; technical consultancy in the field of environmental science, namely, environmental protection; technical monitoring services for conditions of water; testing of raw materials; urban planning; water quality control services; application service provider featuring software for use in accounting, financial management, personnel management, property management, inventory control management, urban planning and schedule management, application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases, namely, design, creation, hosting, maintenance of websites and computer databases for others in the nature of management of personnel productivity, wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices, namely, mobile phones, smart phones, tablet computers, mp3 players; application service provider, namely, providing, hosting, managing, developing, researching, analyzing, reporting, and maintaining applications, software, web sites, and databases, namely, design, creation, hosting, maintenance of websites and computer databases for others of others in the fields of personnel management and risk management; computer service, acting as an application service provider in the field of knowledge management to host computer application software for creating searchable databases of information and data, namely, computer database management services to allow users to perform, on-line, the collecting and analyzing of different types of opinion surveys; computer service, namely, computer database management services in the field of knowledge management to host computer application software for creating searchable databases of information and data; computer service, namely, computer database management services in the field of knowledge management to host computer application software for searching and retrieving information from databases and computer networks; computer services, namely, computer database management services in the field of providing a web-based system and online portal for customers to remotely manage, administer, modify and control their end user computer devices, data and software applications; computer systems integration services; database development services; integration of computer systems and networks; computer systems integration services; providing a secured-access website, namely, hosting websites on the internet that gives registered internet networked institutions the ability to upload, view, copy, print, download and share documents and images for the purposes of conducting consumer-driven transactions; software as a service services featuring software for use in database management; software as a service services, namely, computer database management for others for use in accounting and financial management, personnel management, inventory control management, product supply chain management, urban planning and schedule management; landscape architectural design; engineering services for the construction of water treatment and purification plants, solid waste treatment plants; engineering services in the field of fuel blending, and waste handling; environmental services, namely, technical consultation in the field of hydraulic engineering; hydrologic and engineering modeling and design of measures to protect areas likely to be inundated by storm-water and flood-waters; quality control for others in the field of water and waste water treatment and irrigation systems; technical support, namely, monitoring of network systems for hydro-electric factory facilities; technical consultation in the field of hydro-electric engineering; technical support services, namely, troubleshooting of computer hardware and software problems in the field of hydro-electric engineering; application service provider, namely, hosting software for use by others for use during planning, design and operations for estimating, measuring and verifying the environmental, social and economic impact of business practices in the fields of energy, construction, manufacturing, transportation, in relation to building planning, design, construction and operation, water and wastewater treatment facility design and operation, oil and gas pipeline and pump station facility design, construction and operation, oil and gas transportation and oil and gas delivery systems, utility and governmental infrastructure planning, waste treatment plant design and operation, recycling, product supply and product distribution management, carbon dioxide emissions, greenhouse gas emissions, and employee travel and job-related transportation; hosting software for use by others for use during planning, design, and operations for businesses, utilities and governments for estimating, measuring and verifying the environmental, social and economic impact of alternatives in building design, construction and operation; consulting services in building construction supervision in the field of environmental assessment and planning, consulting services for others in the field of design of buildings, consulting services for others in the field of architectural design, consulting services for others in the field of engineering services for building and property condition assessment, building management, repair and restoration, and environmental consulting in the field of environmental protection, and technical analysis of a product or process to determine how to make it more environmentally sound; architectural design services in the fields of traffic and transportation; civil engineering services in the fields of traffic and transportation; designing plant components and equipment for nuclear power plants; architectural consultation; industrial design; land surveying; land surveys; research in the field of environmental protection; provision of scientific information, advice and consultancy in relation to carbon offsetting; water quality analysis; design and development of computer hardware and software; hosting of websites ; installation, maintenance, hosting and updating of computer software; computer software consultancy.

CLAIMS

Priority Filing Date: EUIPO (EU) November 19, 2014, Application No: 013483169 in association with the same kind of services (1). Proposed Use in CANADA on services

Goods

(1) Computer hardware and software platform for automated parking garage or automated parking facility and automated logistics systems, enabling unmanned positioning, transporting, lifting, loading and turning of vehicles for their automated parking and retrieval; automated parking solution system, namely, control systems for use in parking garages which are comprised of computer hardware, programmable logic controllers, computer user interface display boards, keyboard, computer software for use in automating parking garages and for the storage of vehicles, mechanical elements for use in automated parking garages, namely, elevators, conveyors, moving platforms and turning platforms, electric motors for machines, metal pallets for use in automated parking garages, shuttle cars for use in automated parking garages, non-metal prefabricated building goods, namely, entry bays and exit bays for use in parking garages, all sold as a unit.

(2) Computer based electronic products, namely programmable logic controllers and expansion units for programmable logic controllers; computer software for use in automated warehouses and distribution centers functions, namely, order entry and processing, receiving, put-away, replenishment, order picking, shipping, packing, inventory management and reporting, electronic controllers and conveyors in manufacturing industries for material handling, transporting, shipping, receiving, replenishment; programmable software for industrial automation, industrial logistics, automated logistics systems, namely for the operation of industrial warehouses, parking facilities machines and computer logistics systems therefor and programmable logic controllers for industrial machinery and logistic facilities automation; computer software for electrical and electronic controllers and instruments in the field of industrial automation, namely, programmable logic controllers for factory and facility automation software, controllers and instruments for control of integrating manufacturing machine operations, namely automated systems, automated material handling systems, programmable logic controllers.

SERVICES

(1) Installation, maintenance and support services of automated parking garage, machines, equipment and automated logistics systems, namely, conveyors, lifting apparatus, loading apparatus, transporting apparatus enabling unmanned positioning, transporting, lifting, loading and turning of vehicles for their automated parking and retrieval for automated parking garage or automated parking facility; custom manufacture of a parking solution system and automated

logistics systems, namely, an automated parking garage consisting of elevators, conveyors, moving platforms, turning platforms, shuttle cars, entry bays, exit bays, pallets, electric motors for machines, control systems, namely, computer hardware, programmable logic controllers, user interface display or keyboard.

(2) Custom manufacture of computer hardware and software for industrial automation and integration; custom manufacture of electronic controllers for industrial automation and integration.

(3) Design for others in the field of automated parking garage and facilities, and programmable logic controllers, design for others in the field of automated logistics facilities, namely, automated warehouses and distribution facilities, establishment and contractor services, namely, design, integration and implementation of automated warehouses and distribution facilities; design for others in the field of computers, computer software and hardware for electrical and electronic controllers and instruments, in the field of industrial automation, namely, programmable factory automation devices for control of integrating manufacturing machine operations, namely automated systems, programmable logic controllers.

(4) Design for others in the field of industrial automation products, namely, industrial automation systems for automated parking garages, automated warehouses and automated computer logistics systems therefor and programmable logic controllers, design for others in the field of automated logistics systems, namely, automatic warehouses and distribution systems, establishment and contractor services, namely, design, integration and implementation of automated logistics systems, namely, automatic warehouses and distribution systems; design for others in the field of computers, design for others in the field of computer-based electronic products and computer products, namely, design for others in the field of industrial automation system for automated parking garages, automated warehouses and automated logistics computer systems therefor, electronic programmable controllers for parking garages and automated warehouses.

CLAIMS

Used in CANADA since at least as early as September 2001 on goods and on services (1), (2), (3). Priority Filing Date: ISRAEL May 13, 2015, Application No: 274549 in association with the same kind of goods (1) and in association with the same kind of services (1). Used in ISRAEL on goods and on services (1), (2), (4). Registered in or for ISRAEL on November 11, 2007 under No. 186309 on goods (2); ISRAEL on November 11, 2007 under No. 186310 on services (2); ISRAEL on November 11, 2007 under No. 186311 on services (4); ISRAEL on June 06, 2017 under No. 1260771 on goods (1) and on services (1)

CERTIFICATION MARK

VQA

Certification Mark Text
That such wines are made from (1) 100% provincially grown grapes (no concentrates are permitted) that meet a quality standard for each variety (measured by natural sugar content in the ripe grapes), (2) without water added in the winemaking process, (3) that bear truthful and accurate labels that represent the wine in the bottle, (3) that, with the exception of sparkling wine, fortified wine, liqueur wine, and wine that bears a private label, are vintage dated and meet vintage requirements, and (4) are evaluated through laboratory analysis for compliance with the Canada Food and Drugs Act and regulations, the British Columbia Wines of Marked Quality Regulation, and the Vintners Quality Alliance of Ontario Act and regulations, as amended from time to time, and such other similar provincial statutes and regulations that meet or exceed the standards established under these laws and that are deposited with the Registrar at the time of enactment. The applicant is not engaged in the manufacture, sale, leasing or hiring of goods or the performance of services such as those in association with which the certification mark is used.

Goods

Class 09

Computer hardware and software for setting up, configuring and operating personal health and security alarm systems; computer hardware and downloadable mobile applications for recording user locations with GPS-enabled maps, and for accessing user-defined and area safety information, and for communicating with members of a user's network; Hardware and software for anti-intrusion alarms, burglar alarms, home and business security systems, video surveillance systems, fire detection systems, smoke and gas detection systems; Computer hardware and operating software for connecting to anti-intrusion alarms, burglar alarms, security systems, video surveillance systems, fire detection systems, smoke and gas detection systems, home automation systems, energy and utility control and monitoring systems, health status notification systems and fitness and wellness tracking units; Life safety devices, namely, motion detectors, accelerometers, ultrasonic wave detectors, microwave detectors and passive infrared detectors, personal security alarms, devices for recording, playback, and transmission via the internet, wide area computer network, satellite and cellular phone network of sound and images, namely, cameras, video cameras and sound recorders and devices equipped with cameras, video cameras and sound recorders, namely, smart phones, smart watches, and tablet computers, glass break detectors, electronic monitors and monitor modules for monitoring electric current and electrical signals, fire detectors, smoke and gas detectors, and tamper detectors, namely, electronic sensors for detection of tampering with any of the above-noted devices; Home automation, monitoring, and control devices, namely, environmental sensors for detecting heat, water, smoke, gas, temperature, humidity, air pressure, and movement, temperature and humidity controllers, water valve controllers, electric light dimmers and switches, electrical inductors, electrical control systems for lighting systems, remote control units for home automation systems, and electronic locks for doors and windows; Health, fitness, and wellness devices, namely, panic buttons, sensors for measuring behavior patterns based on body chemical changes and movement, sensors for measuring levels of activity, sensors to monitor and track movement, medical scales, sensors for detecting, measuring, processing, collecting, recording and transmitting via the internet, wide area computer network, satellite and cellular phone network medical condition data.

SERVICES

Class 35

(1) Import, export, and retail services for devices used in the field of life safety, home automation, health, and fitness.

Class 42

(2) Technological, research, and design services in the field of life safety, home automation, health, and fitness.

Class 44

(3) Information and monitoring services in the field of health, and fitness.

Class 45

(4) Alarm response and verification services; monitoring of security and personal health alarms, security systems for buildings, and home automation systems; monitoring of life safety alarms, namely, alarms from motion detectors, accelerometers, ultrasonic wave detectors, microwave detectors and passive infrared detectors, personal security alarms, devices for recording, playback, and transmission via the internet, wide area computer network, satellite and cellular phone network of sound and images, namely, cameras, video cameras and sound recorders and devices equipped with cameras, video cameras and sound recorders, namely, smart phones, smart watches, and tablet computers, glass break detectors, electronic monitors and monitor modules for monitoring electric current and electrical signals, fire detectors, smoke and gas detectors, and tamper detectors, namely, electronic sensors for detection of tampering with any of the above-noted devices; remote monitoring of security and personal health alarms, security systems for buildings, and home automation systems; remote monitoring of life safety alarms, namely, alarms from motion detectors, accelerometers, ultrasonic wave detectors, microwave detectors and passive infrared detectors, personal security alarms, devices for recording, playback, and transmission via the internet, wide area computer network, satellite and cellular phone network of sound and images, namely, cameras, video cameras and sound recorders and devices equipped with cameras, video cameras and sound recorders, namely, smart phones, smart watches, and tablet computers, glass break detectors, electronic monitors and monitor modules for monitoring electric current and electrical signals, fire detectors, smoke and gas detectors, and tamper detectors, namely, electronic sensors for detection of tampering with any of the above-noted devices; monitoring of computer systems for life safety and life style purposes, namely, remote monitoring of computer systems in the fields of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, pet and personnel location, automobile safety, traffic, and road navigation; water flow monitoring services; Security services, namely control of building environmental access and security systems; monitoring audio calls, video communications, texts and email from subscribers and notifying emergency responders when appropriate; electronic monitoring services in the field of people, pets, physical assets, homes, and businesses; monitoring telephone calls and messages from subscribers and notifying emergency facilities from call centers in the fields of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices for fire protection; Providing consulting via telephone hotline in the field of monitoring telephone calls from subscribers and notifying emergency facilities from call centers; monitoring telephone calls from subscribers and notifying emergency facilities from call centers; and concierge services for others comprising making requested personal arrangements and reservations and providing customer specific information to meet individual needs; Providing

information in the field of personal physical security; Advisory services in the field of personal and building security, home automation, and home health systems; Providing information in the field of building security via the Internet; Online social networking services.

Colour Claim
Colour is claimed as a feature of the trademark. The words "TONGA OFFSHORE MINING LIMITED" are white, the first rectangle containing the words is red, the circle designs are red; the second rectangle containing the circles and partially containing the first rectangle is pink.

Goods

Class 06

(1) Common metals and their alloys; metals and metallurgical products and by-products, namely risers, pumps, water-pipe valves for the mining, steel and casting industries; ores; ores of metal; ferrous and non-ferrous metals, alloys and ores; copper; copper, unwrought or semi-wrought; refined and unrefined copper; copper concentrates; zinc; nickel; tin; manganese; iron; iron ores; aluminium; aluminium alloys; magnesium; magnesium alloys; lead; lead alloys; alloys of common metals; non-electric cables and wires of common metal for use in industrial applications; ironmongery, metal pipe clamps; metal flanges; metal pipe collars; metal pipe connectors; metal

seals and clamps for pipe connections; metal pipe couplings and joints; pipes and tubes of metal for liquid and gas transfer; branching pipes of metal; parts and fittings sold together with all of the aforementioned goods

Class 07

(2) Machines and machine tools for use in mining, namely excavation machines and extractors for mines; industrial robots (machines); submersible machines, namely subsea mining equipment and robots for underwater exploration; mining and mineral processing machinery, apparatus and equipment (machines), namely seafloor excavators, collectors, and slurry lift machinery; excavators; feed chute transporters; extractors for mines; hauling trucks; net hauling machines; filtering and filtration machines for use in mining; fluid flow machines for use in mining; grinding machines; ground boring machines; ground drilling apparatus (machines) for use in mining; ground engaging machines for use in mining; transportation robots; robots for use in mining; Machines, namely seafloor excavators and collectors, adapted to operate by remote control for use in mining; motors and engines (except for land vehicles) for marine and underwater vehicles, namely autonomous underwater vehicles for seabed inspections and excavations, and ships; machine coupling and transmission components (except for land vehicles) for, marine and underwater vehicles namely autonomous underwater vehicles for seabed inspections and excavations, and ships; parts and fittings sold together with all of the aforementioned goods

Class 12

(3) Vessels in the form of boats and ships; underwater vehicles, namely remotely operated submersibles, seafloor excavators and collectors; vehicles for transportation of goods by water, namely riser and lifting systems to lift and pump minerals, and mineral processing and bulk storage vessels; vehicles for passenger transportation by water, namely ships; remotely operated vehicles, namely submersible robotic seafloor vehicles used for underwater exploration, construction, and facilities maintenance and repair; submersible vehicles, namely seafloor vehicles for seafloor inspection, seabed excavation, mining, collection, and slurry transportation; autonomous underwater vehicles for seabed inspections, excavation, mining, collection, and transportation; unmanned transportation robots; launching apparatus for underwater vehicles for lifting mining tools in and out of water, unmanned transportation robots; retrieval and recovery apparatus for underwater vehicles, remotely operated underwater vehicles, unmanned transportation robots, namely recovery systems having lift winches, hydraulic power units, electric power units, A frames, and deck control cabins; parts and fittings sold together with all of the aforementioned goods

SERVICES

Class 37

(1) Mining services, mining extraction; mine construction, installation, maintenance and repair services; underwater mine construction and repair; pipeline construction and maintenance; machinery installation, maintenance and repair in the field of mining; heating equipment installation and repair; freezing equipment installation and repair; factory construction; furnace and smelter installation and repair; offshore drilling; rock drilling; seafloor and ocean drilling; oil and gas drilling; blasting services (mining); quarrying services; earth moving services; building and maintenance of roads, railways, ports and airports; providing information, advisory and consultancy services in relation to all of the aforementioned

Class 40

(2) Treatment, namely separation and refining, of materials in the nature of metals, gold, silver, platinum, copper, sulphides, magnesium, iron, nickel, cobalt, zinc, aluminium; treatment and blending namely suspension and separation of materials in the nature of minerals, ores,

concentrates and mineral substances; treatment of materials, namely, chemicals and metals extraction and processing; mineral processing and refining; metal refining services, namely, metals, gold, silver, platinum, copper, sulphides, magnesium, iron, nickel, cobalt, zinc, aluminium; recovery of gold, silver, copper, zinc and by-products of mining and refining of gold, silver, copper, zinc; oil gas recovery, treatment, refining and processing; recycling, recovery, purification and reprocessing services of wastewater, metals, gold, silver, platinum, copper, sulphides, magnesium, iron, nickel, cobalt, zinc, aluminium; providing information, advisory and consultancy services in relation to all of the aforementioned

Class 42

(3) Construction engineering; civil engineering; electrical engineering; marine engineering; structural engineering

Goods

Class 09
Apparatus and instruments for accumulating and storing electricity, namely, electrical power supplies in the nature of uninterruptible power supplies, high-frequency switching power supplies, capacitors, and renewable electrical storage batteries to provide backup power; apparatus and instruments for controlling electricity, namely, electric controllers for regulating start-up electrical motors, voltage regulators, electric converters, electric relays, electrical controllers for diesel engines, and transistors; electric and electronic components, namely, semi-conductors, electric cables, electric wires, electrical fuses, electric conductors in the nature of electrical conductors for electric motors, electrical conductors for transformers and semi-conductors and connection fittings therefor; measuring, detecting and monitoring instruments, namely electronic indicator boards, electronic indicator panels, and electrical controllers in the nature of electronic circuit boards, electronic notice boards and electronic control panels

SERVICES

Class 37

(1) Maintenance, repair and installation of apparatus and equipment for electricity charging and storage, namely, electrical power supplies in the nature of uninterruptible power supplies, high-frequency switching power supplies, capacitors, and renewable electrical storage batteries to provide backup power, electricity control devices and equipment in the nature of electric controllers for regulating start-up electrical motors, voltage regulators, electric converters, electric relays, electrical controllers for diesel engines, and transistors, electrical and electronic components in the nature of semi-conductors, electric cables, electric wires, electrical fuses, electric conductors particularly electrical conductors for electric motors, electrical conductors for transformers and semi-conductors and connection fittings therefor, measuring devices, monitoring and surveillance devices, sensors and controls in the nature of electronic indicator boards, electronic indicator panels, and electrical controllers, particularly, electronic circuit boards, electronic notice boards, electronic control panels

Class 40

(2) Sub-assembly of semi-conductors, electric cables, wires, electrical fuses, conductors in the nature of electrical conductors for electric motors, electrical conductors for transformers and semi-conductors and connection fittings components for others; custom assembling of electrical power supply equipment, namely, high-frequency switching power supplies, uninterruptible power supplies and voltage stabilizing power supply for others

Class 42

(3) Scientific and technological services and research and design relating thereto and industrial analysis and research services, namely, research analysis and testing in the field of electric power supply equipment, namely, high-frequency switching power supplies, uninterruptible power supplies, voltage stabilizing power supply, voltage regulators, electric converters, electric relays and transistors; computer hardware and software design and development services

BUL JJAMPPONG PALDO BUL JJAMPPONG CHO MA MYEON

Image Description (Vienna)

- Rectangles
- One quadrilateral
- Quadrilaterals containing one or more letters
- Quadrilaterals containing other inscriptions
- Quadrilaterals with dark surfaces or parts of surfaces
- Inscriptions in other characters
- Inscriptions in Chinese or Japanese characters

Foreign Character Translation

As provided by the applicant, the two leftmost characters, arranged vertically, are Korean and are transliterated as PALDO, which is a coined word with no meaning in English or French. The three larger horizontally arranged characters are Korean and are transliterated as "BUL JJAMPPONG". As provided by the applicant, the words "BUL" and "JJAMPPONG" mean 'spicy' and 'Chinese-style noodles with vegetables and seafood', respectively. Therefore, the phrase "BUL JJAMPPONG" translates as 'spicy Chinese-style noodles with vegetables and seafood'. The three smaller characters that are horizontally arranged below the larger horizontal characters, are Chinese and are transliterated as "Cho Ma Myeon", which is coined word, for which the applicant is not aware of any translation in English or French.
